Re: Santan Generating Station Expansion-MOTION FOR HEARING

Dear Mr. Johnson:

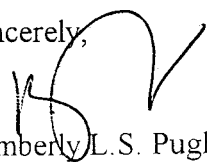

I am writing you to request a Hearing, as a member of the Community Working Group ("CWG"), on the oil tank issue that has arisen regarding on-site mitigation of the Santan Generating Station Expansion project. We have finished with our on-site mitigation to the extent that we can do so, but now require the Arizona Corporation Commissions' intervention to finish this on-site mitigation process.

The SRP Santan Community Working Group previously sent you correspondence, dated January 8, 2002, wherein the CWG stated that a consensus had been reached that the southernmost oil tank should be removed for proper mitigation relating to both on-site and off-site mitigation. After that letter was sent, the hearing which had previously been scheduled on this issue was canceled. SRP has stated that they will remove this southernmost oil tank, but intend to replace it with two smaller tanks, which will be approximately 32 feet tall. This issue directly affects the surrounding homeowner's property values as well as their physical health. SRP is not allowed to burn diesel fuel at the Santan Generating Station in accordance with the conditions previously stated by the Corporation Commission. I believe that SRP is doing everything possible to get around those conditions, and that is why they insist upon leaving diesel tanks at that site. It is urgent and necessary that the Corporation Commission hold a hearing to address the issue of whether SRP should be allowed to keep these or any oil tanks on that site. Note that on-site mitigation cannot be completed until this issue is decided by the Corporation Commission.

WHEREFORE, I respectfully request that the Arizona Corporation Commission set a date and time for a hearing on the matter of removal of all oil tanks from the Santan Generating

Station. I further request that members of the CWG be allowed to present their case with respect to the oil tank issue at any hearing scheduled to take place.

Sincerely,

Kimberly L.S. Pugh  
CWG member
